

UNIVERSITY OF TWENTE.

WEB TECHNOLOGY

TUTORIAL SESSION #2 FOR "WE CREATE IDENTITY"
INTRODUCTION TO WORDPRESS

Module 1 - We Create Identity

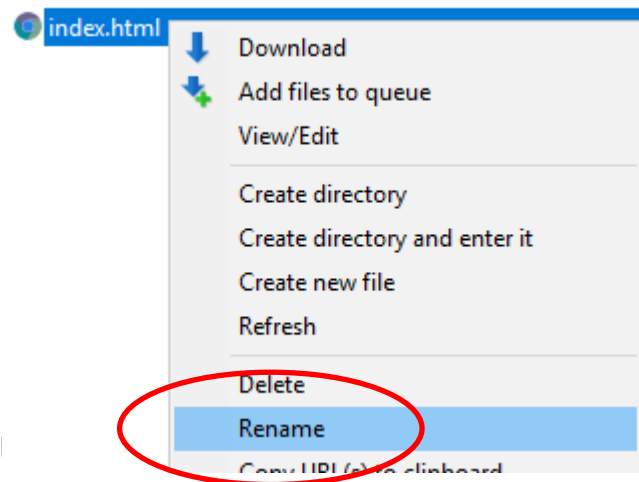

WORDPRESS: BEFORE YOU START

Installing WordPress will make any index.html file inaccessible.

Have index.html (for assignment 1)?

Use FileZilla to **rename index.html to assignment1.html** and hand-in the URL at assignment 1 on canvas or tell us in your first Blog post.
eg.:

`https://portfolio.cr.utwente.nl/student/xxxxxxxxx/assignment1.html`

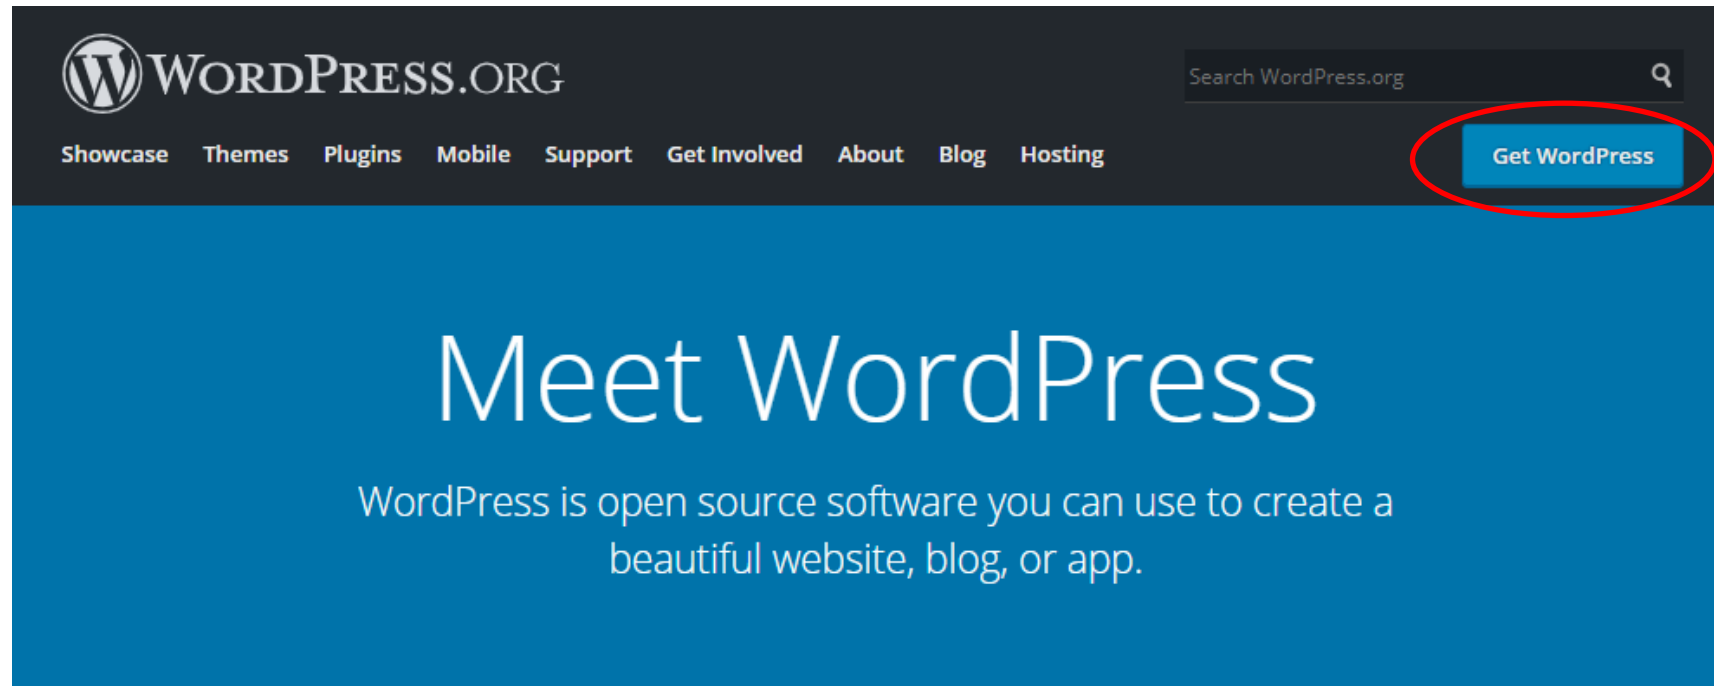

WORDPRESS

- Install on your site: download software from wordpress.org, install, customize
- Use the guide portfolio.cr.utwente.nl/help/wordpress

Important: continue guide **up to step 4**, otherwise you will get into trouble later!

WORDPRESS THEMES

Dashboard: Appearance > **Themes** > Add New

- Find a nice theme, customize it
- *First*, customize by using the theme's customization options
- *Later* (starting next week) by **adding your own CSS to a theme**, or creating a child theme

Use the guide portfolio.cr.utwente.nl/help/wordpress follow it all the way until step 4!
