INTEGRATE: SOCIAL MEDIA

EMBEDDING TWITTER FEED

Show recent tweets from @fjodorvs

- Sign in, goto *Settings > Widgets > Create New*
- Choose type: eg. *List* and enter details:

The screenshot shows the Twitter widget creation process. A blue box at the top asks "What would you like to embed?" with a search bar containing "@fjodorvs". A red callout box points to the search bar with the text "Enter your handle, eg. @fjodorvs". Below this, two options are shown: "Embedded Timeline" (circled in red) and "Twitter Buttons". A second red callout box points to the "Embedded Timeline" option with the text "Copy code into your page". At the bottom, a code editor shows the HTML code: ``. Below the code editor, it says "Copy and paste the code into the HTML of your site."

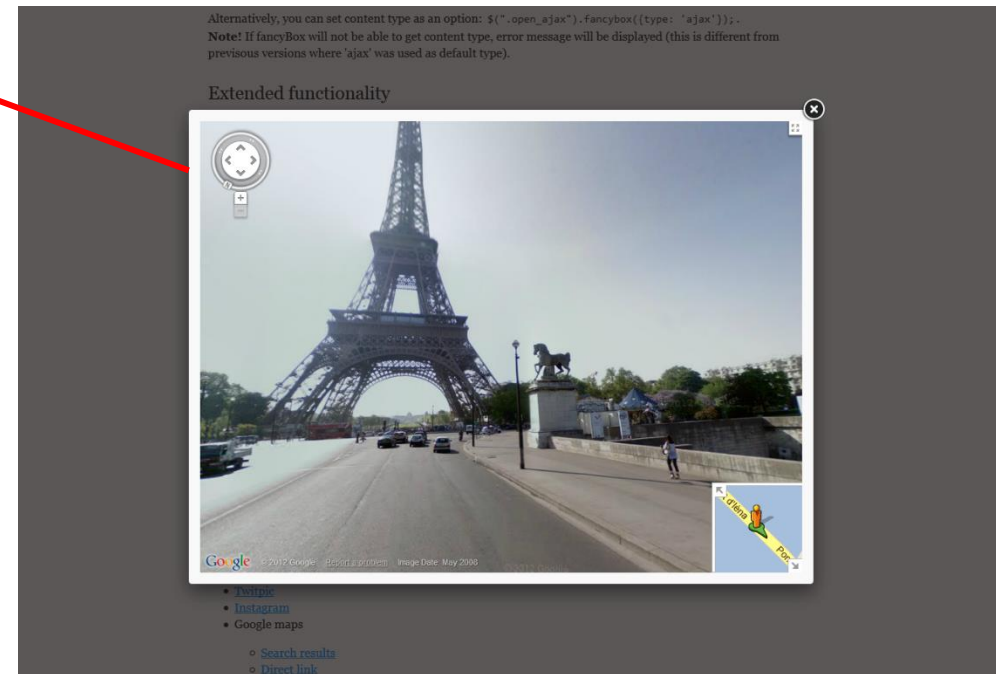

INTEGRATE: PHOTO VIEWER

- Image viewer, also called *LightBox*
- Connect to online services: Instagram, Picasa, Flickr
- Show video (Youtube)
- Example: **fancyBox**

fancyBox

fancyBox is a tool that offers a nice and elegant way to add zooming functionality for images, html content and multi-media on your webpages. It is built at the top of the popular JavaScript framework jQuery and is both easy to implement and a snap to customize.

FANCYBOX, A LIGHTBOX VARIANT

INTEGRATE AN IMAGE GALLERY INTO YOUR SITE

1. Include **jQuery** and **fancyBox** scripts:

```
<!-- Add jQuery library -->  
<script src="https://cdnjs.cloudflare.com/ajax/libs/jquery/3.4.1/jquery.min.js"></script>  
  
<!-- Add fancyBox -->  
<link rel="stylesheet" href="https://cdnjs.cloudflare.com/ajax/libs/fancybox/3.5.7/jquery.fancybox.min.css" type="text/css" media="screen" />  
<script src="https://cdnjs.cloudflare.com/ajax/libs/fancybox/3.5.7/jquery.fancybox.min.js"></script>
```

In this example, we use the CDN-versions of the scripts from cdnjs.com/libraries/fancybox

FANCYBOX

SHOW THE GALLERY IN A WEBPAGE

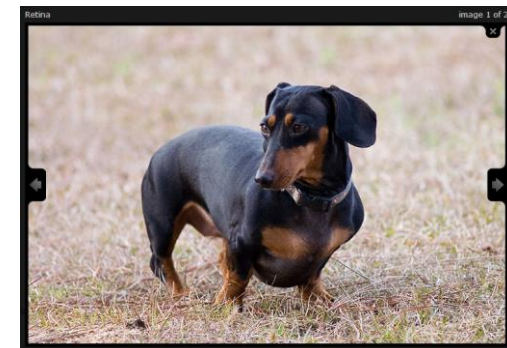

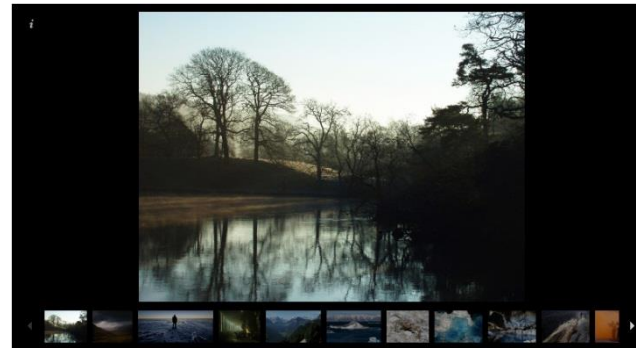

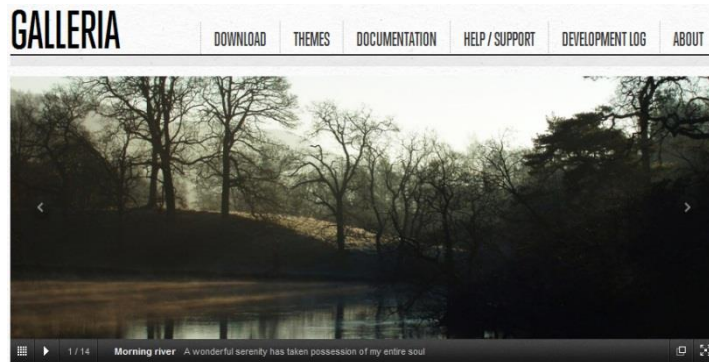

2. Create a div containing a set of linked images:

```
<div class="gallery">  
  <a href="images/Chrysanthemum.jpg"></a>  
  ...  
</div>
```

3. Add script to start fancyBox:

```
<script>  
  $(document).ready(function() {  
    $(".gallery a").fancybox();  
  });  
</script>
```
